ILAGAN, VINN BRYCEN
JARUMAYAN, EUNIKA SIMOUNE
ROMULO, NEIL JOSEPH

VOTING WITH A SMOOTH FLOW, FOR
THE SOCIETY'S BETTER TOMORROW

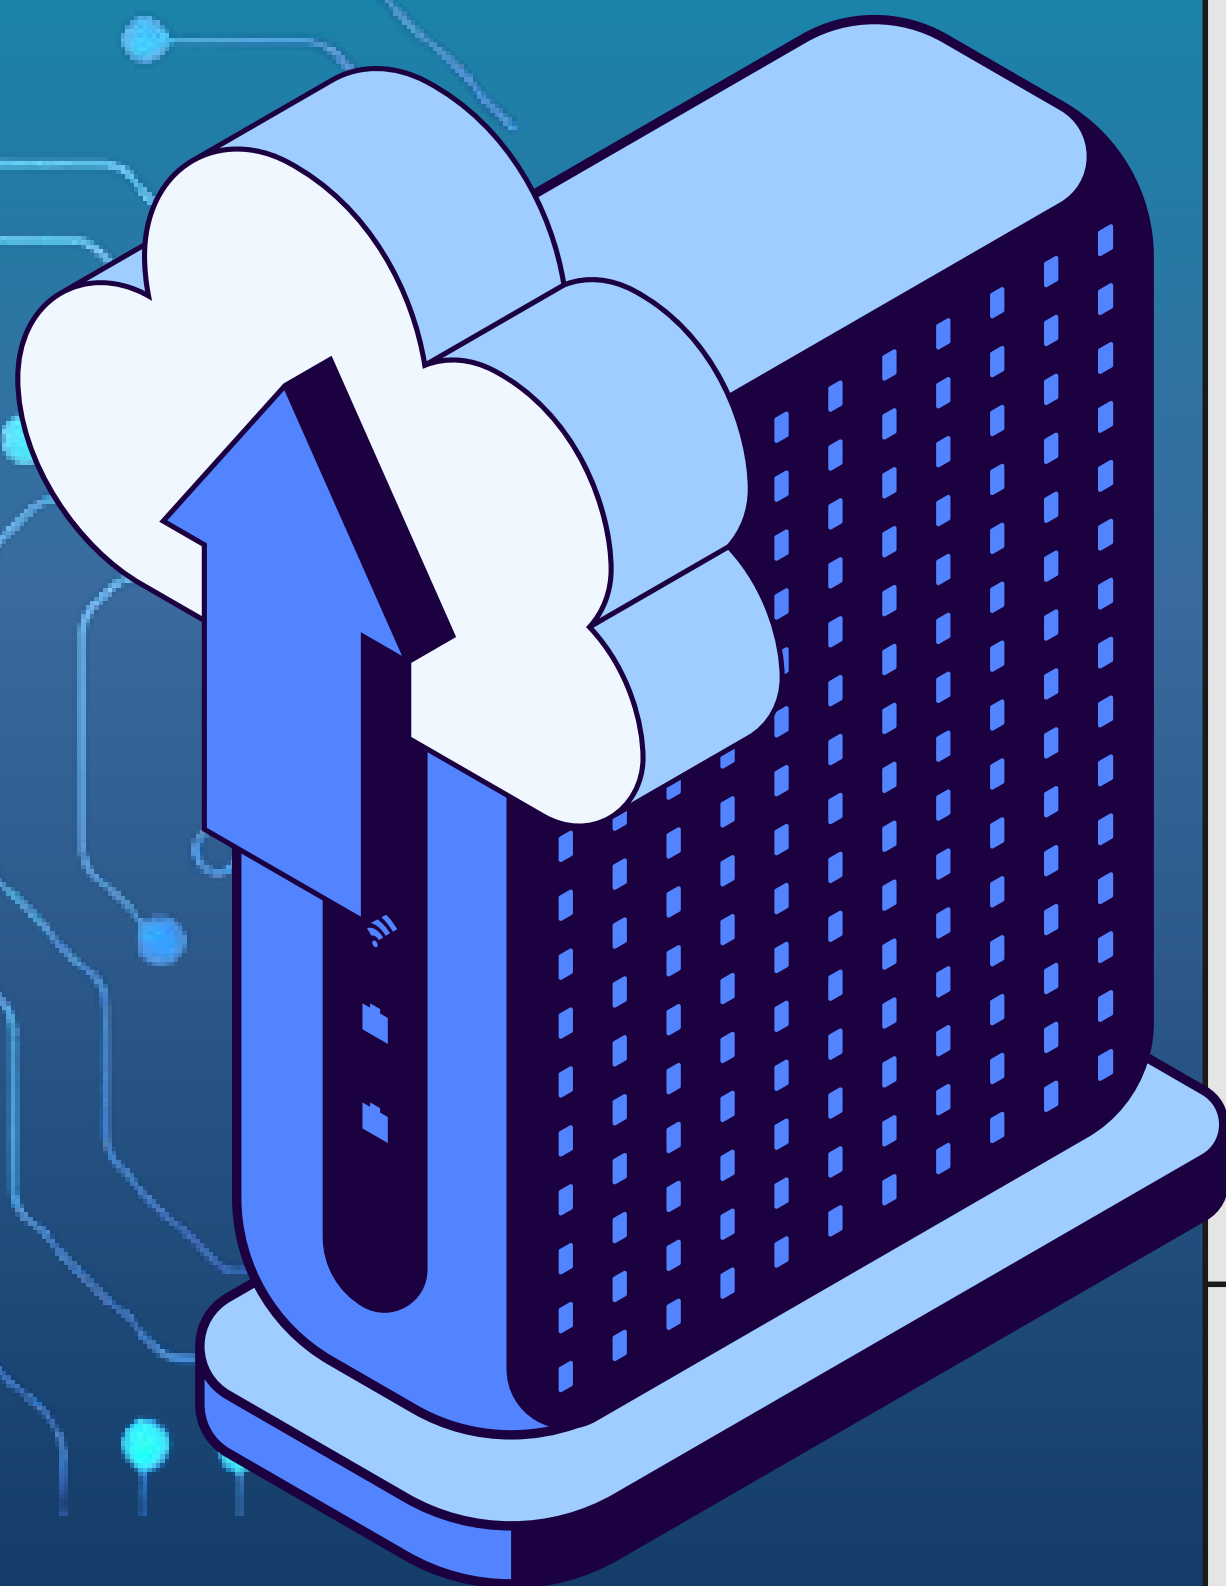

PROJECT OVERVIEW & RELEVANCE

- A user can log in either as a voter or an administrator.
- Being a voter requires them to be age 18 or above, with a birthdate input to confirm their age. Once logged in, the user can view the Candidate Information List.
- Voters can also fill out the Candidate Compatibility Survey, which lets them vote for candidates aligned with their beliefs
- An administrator rights are reserved for people over the age of 30, with a specific password.
- Being an admin allows them to modify and update specific candidate information, making sure our program stays up to date.

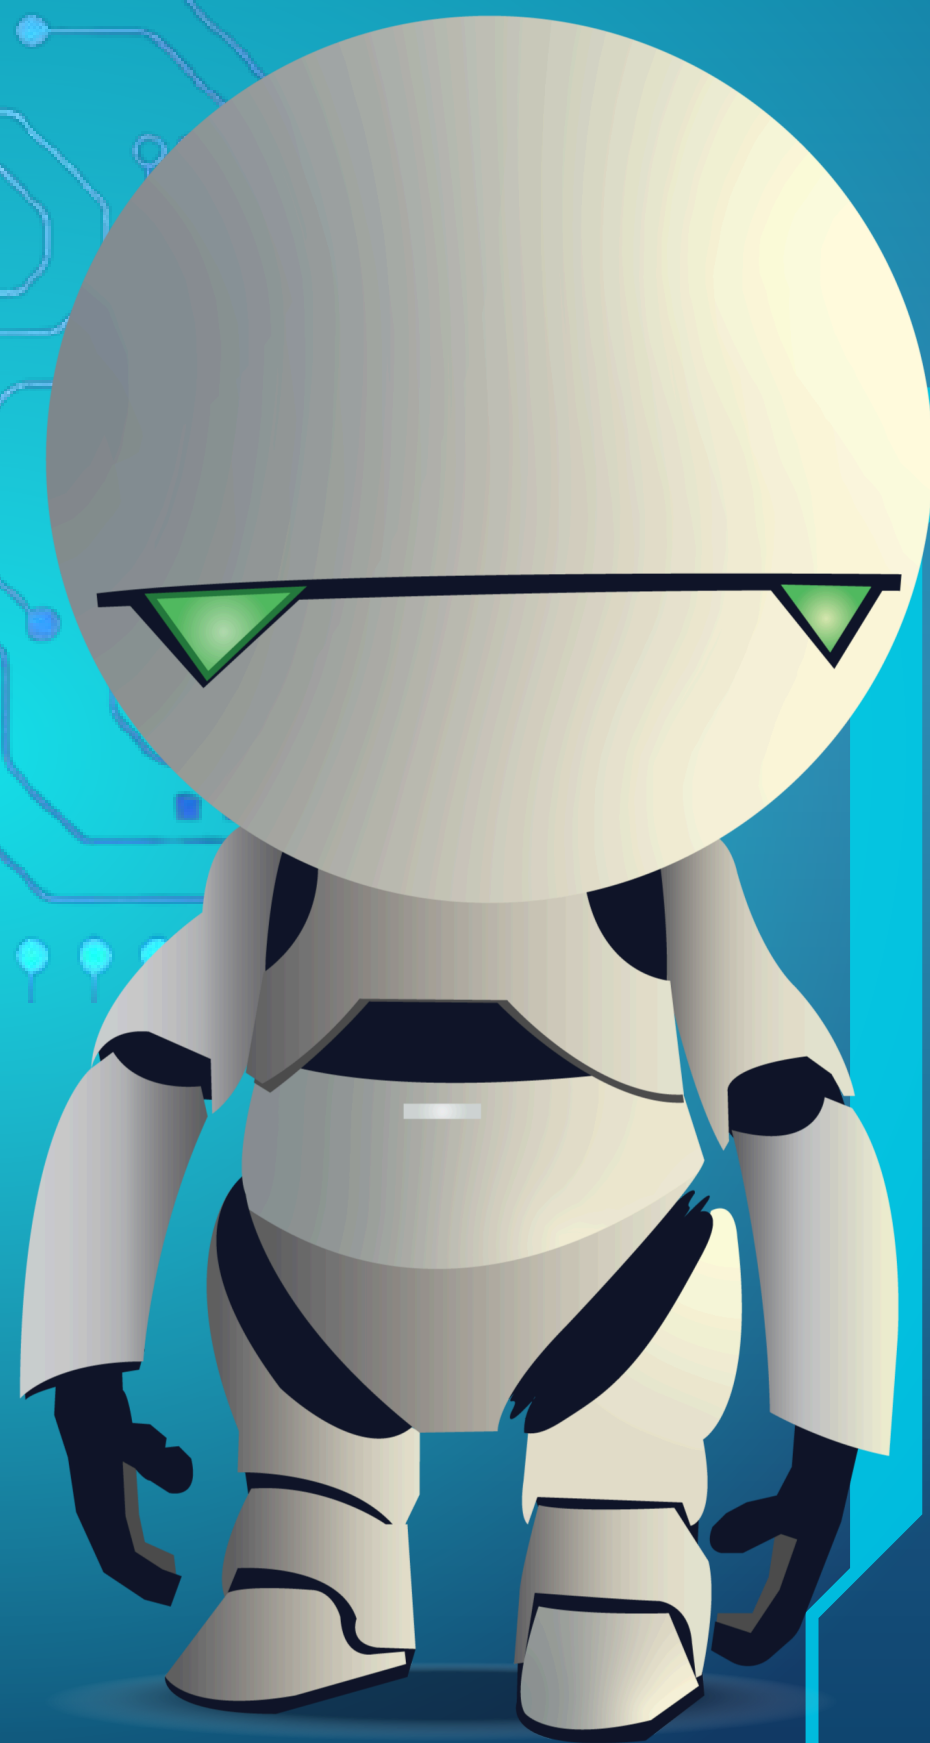

OBJECTIVES (PAMI)

Provide a secure, confidential, and tamper-free experience for voting through private channels and unbiased facilitators.

Align voters with candidates that match their views with features like a questionnaire that can extract the user's views and find a suitable candidate for them with similar views.

OBJECTIVES (PAMI)

***M**ake voting more accessible by making the process a few clicks away, only needing a phone and a stable wifi connection.*

***I**ncrease voting literacy by providing supplementary information for who the user will vote for.*

SCOPE, LIMITATIONS, & PROPOSED SOLUTIONS: DISCUSSION

THANK YOU!

*Let's enlight the future of
society together!*
